Agilent Technologies (HP) 7673A/1/11

One of the world's most popular autosamplers is the HP 7673A, and there are many Chromacol vials of different shape and volume, caps and seals with many different formulations, which are ideal for this instrument. Our 2-CV vials and 11-AC7 caps, included in our Instrument Select packs HPG, are a perfect match and our MICRO+™ range of vials are ideal for microsampling. For GC septa please see page 81.
